

CRX2 Wireless Controller - Mains or battery powered

The new CRX2 wireless controller features a large easy-to-read backlit LCD display and offers up to six temperature settings a day, seven days a week.

It has four different operating models and features a 15-minutes Boost with temperature control to provide the maximum comfort quickly. The CRX2 wireless controller works with all RX heaters and can operate different products at the same time, allowing total heating systems to be effectively controlled; for example, in an apartment, plinth heaters and panel heaters could use the same controller. This modern design controller is supplied with a security wall bracket and a table top stand which is perfect for placing it anywhere in a room.
