

## PRX Panel Heaters - Wireless Controlled

The PRX panel heaters are very slim and contemporary in design. They have strengthened grilles to increase durability. The wall mounting system features a new snap-on bracket which allows easy installation, cleaning and decorating. The heaters provide a flexible, expandable and economic heating system due to CRX2 wireless controller's unique ability to control one or more heaters wirelessly. With constant wireless communication between controller and heater, energy consumption is accurately controlled making the panel heaters more energy efficient to operate. The CRX2 wireless controller offers up to 6 temperature settings a day, 7 days a week. It also has the ability to override, advance, boost and setback as required.

- Available in 0.5kW, 0.75kW, 1kW, 1.25kW, 1.5kW and 2kW models
- Very quiet operation
- Wireless controlled by separately purchased CRX2 controller
- One CRX2 controller can operate multiple RX heaters
- CRX2 controller is compatible with separately purchased MRX1 Multizone controller for 'zoning' of the heating system
- Automatic safety cut-out
- Splash proof to IP24 for use in bathrooms and other damp areas
- New snap-on bracket for easy installation and decorating
- Finished in white or stainless steel

### Dimensions (mm) & Weight (kg):

Model No.	Rating (kW)	Height	Depth	Width	Weight
PRX050(SS)	0.5	430	93	442	4.0
PRX075(SS)	0.75	430	93	442	4.0
PRX100(SS)	1	430	93	614	5.0
PRX125(SS)	1.25	430	93	720	6.0
PRX150(SS)	1.5	430	93	720	6.0
PRX200(SS)	2	430	93	852	6.5

Note: (SS) denotes Stainless Steel model.

### CRX2 Energy Saving Features

- 6 temperature programmes per day
- 7-day heating programmes per week
- Maintains temperature within 0.5°C
- Set temperature in 0.5 degrees increments
- Reduced power consumption in standby mode
