

WHY CHOOSE RFE PLUS RADIATORS?

The RF PLUS range boasts the very latest technology developed by ELNUR to provide a modern ergonomically designed, stylish, efficient and totally controllable electric radiator.

Traditional system with thermal fluid.

With a know-how of 40 years of manufacturing excellence, ELNUR has incorporated clever design features to enhance performance. The RFE PLUS radiator range is manufactured from an injected aluminium structure with thermal fluid inside, specifically designed to disperse the heat over its entire surface.

Every radiator in the RFE PLUS range provides accurate temperature control of the room where they are installed with an electronic chronothermostat that allows the user to set their ideal temperature during the day or the night, as and when required.

Energy control is essential to minimize consumption and reduce electricity expenses.

RFE PLUS radiators provide you with the latest technology in consumption control - ETCO (ELECTRONIC TRIAC CONTROL OPTIMIZER), to manage and restrict the flow of electricity.

Furthermore, each RFE PLUS radiator boasts our built-in weekly/daily programmer to provide the user with precise time control. This easy to use yet comprehensive programmer allows the user to set their desired mode - Comfort, Economy or Frost Protection, for any given hour of the day, providing maximum comfort whilst helping to make savings in unnecessary heating expense.

New features to enhance efficiency and reduce carbon footprint include adaptive start control and open window detection system.

The result is a technically superb product that provides the best efficiency in direct electric heating coupled with our industry leading 5 year electronics and 10 year aluminium components warranty.

RFE PLUS

Electric Radiator, Digital control with programmer

Patented wall fixing brackets

Our patented Wall Fixing Brackets can save 50% of the installation time avoiding measuring and levelling work.

Technical features

- ▶ **Electronic Triac control optimizer ETCO.**
- ▶ Digital temperature selector for displaying real temperature, set up temperature, clock and other messages.
- ▶ **Weekly and daily programmer.**
- ▶ **Three-level temperature selector:** Comfort, Economy and Frost-protection.
- ▶ **Open window detection** for reduced energy waste.
- ▶ **Adaptive start control.**
- ▶ **EcoFluid technology**
- ▶ Built-in electronic **ambient thermostat $\pm 0,1^{\circ}\text{C}$.**
- ▶ Adjustable digital thermostat.
- ▶ Built-in On-Off switch.
- ▶ **Security system** with five-year memory backup, to prevent loss of programming.
- ▶ Flat lockable keyboard for easy cleaning.
- ▶ Thermal safety cut out.
- ▶ IP2X protection.
- ▶ Class I insulation.
- ▶ Stylish aluminium body finished in epoxy powder coating RAL 9010.
- ▶ Ratings from 500 to 2000 W.
- ▶ Fitted with mains cable.
- ▶ **Patented safety wall fixing brackets** for ease of installation.
